

Inter-Departmental Environmental Studies Model Competition (1st May, 2018)

The International Earth Day (22nd April) is celebrated every year all over the world to remind each of us that the earth and its ecosystems provide us with life and sustenance. In order to mark the occasion, Department of Chemistry and Environmental studies organized an Inter-Departmental Environmental Studies Model competition on 1st May 2018 for all first year B. Tech students. The students participated with unmatched enthusiasm and submitted a number of entries pertaining to various environmental issues such as renewable energy, pollution and its control, water conservation, green technology etc. These models were judged by a distinguished panel of judges comprising Prof. Y. D. Gaur, Prof. S. D. Chauhan, Prof. Abhijeet Nayak and Dr. S. R. Gupta. The judges were duly impressed by the efforts and talent of students and also provided encouragement and guidance. First prize was awarded to the project entitled “Gravity Power Storage Module” presented by students of CSE Department and the second prize was shared by two entries on “Smart/Automatic Street light”. An app “Green Genie” designed by the students of ECE was awarded third prize. Cash prizes for the competition were graciously sanctioned by the management.

This event is an annual feature in the departmental calendar and helps to inculcate feeling of responsibility towards environment and impart awareness about the important environmental issues.
